

Navilink™

Wi-Fi remote control systems

Navien makes it
easy to control
your water heater
or boiler from
anywhere
in the world

Smarter Living Environment Partner

NaviLink™ & NaviLink Lite™

Wi-Fi remote control systems

NaviLink and NaviLink Lite are add-on accessories that make it easy to communicate with your Navien systems anywhere internet service is accessible. These modules attach easily to any new or existing* Navien tankless water heater, combi-boiler, or boiler. Once installed, simply download the free app on your smart phone or tablet. Then you will be able to relax...with

NaviLink you will have the convenience and control of all your Navien systems right in the palm of your hand.

*Existing installations may require the purchase of a new main PCB and front control panel. NaviLink is compatible with NPE-2, NPN, NCB-H, NFC-H, NHB, NFB-H and NFB-C series.

NaviLink

NaviLink Lite

NPE-2 Series

Condensing tankless water heaters

NFC-H Series

Condensing combi-boilers

Push notifications	•	•
Wi-Fi connectivity	•	•
LAN connectivity	•	
Works for single unit	•	•
Works for up to 3 banks of 8 units (up to 24 total units)	•	
No external power required		•
Powered by connection to unit		•

Smarter Living Environment Partner

Navien **innovations**

are creating the most
energy efficient homes

Navien is the leader in condensing technology for water heaters and boilers. Our advanced systems recover extra heat from flue gases, that would be lost in non-condensing systems, to increase energy efficiency and reduce greenhouse gas emissions. This keeps exhaust emission temperatures very low, allowing for cost effective venting and space saving installations.

For more information contact your local Navien dealer or visit NavienInc.com.
